Subject: VB/I-70 CAG meeting tonight!

Hey all. Steve and I are heading to a VB/I-70 CAG meeting tonight where we will be engaged in a lively discussion regarding the deletion of OU1. In preparation, it would be helpful if we were ready with answers to the following:

1. Can we get a copy of the AR for OU1 – what do we say?
2. Can we share the documents included in the NOID package prior to the comment period – like now so they can see them?
3. What are all the pieces of evidence that led us to conclude that the lead and/or arsenic was in the top two inches and dissipated quickly at depth?
